

Sun Pacific Power

Building A Brighter Future...

THE QUAD LED CANOPY

SPPC's newest LED design functions perfectly as a garage or canopy light. The Quad features a rugged low-profile die-cast housing and an integrated LED module with cutting-edge Type V optics. Low energy usage, high luminous efficacy, and a robust design provides a perfect solution for your LED projects.

SPECS:

- Die cast aluminum housing with a chromate conversion coating and powdercoat finish.
- UV stabilized polycarbonate lens with injection-molded frame.
- Universal voltage: 120-277V, 50/60Hz.
- System wattage: 71 watts.
- Luminous output: 5689 (80 LPW).
- CCT: 45K, CRI: 75
